Land Use Office PUBLIC HEARING PROCESS

INTRODUCTION

New Jersey law dictates the public hearing process for both the Planning Board and the Zoning Board of Adjustment.

APPLICATIONS

- Upon submission, each application is assigned a number.
- The Land Use Office has 45 days in which to deem an application complete; at which time an applicant will be given a hearing date.
- When the Chair calls an application, the applicant and/or attorney comes forward, and states their name(s) for the record. Please note, corporate entities must be represented by counsel.
- The applicant/attorney provides a brief overview of the proposal and calls their witnesses.
- Each expert witness states his/her name and occupation, is sworn in, and presents professional credentials to the Board.
- Once the witness' credentials are accepted by the Board, they may testify.
- The applicant's attorney will ask questions of each the expert witness to elicit their testimony.
- The Board and its professional staff will also ask questions of the witnesses.

AGENDA

A printed Agenda shows the order in which items will be heard or discussed. The Chair may change the order. Should any items on the Agenda not get heard or require additional time, a continuation date is announced for any uncompleted applications. Generally, this announcement satisfies the Public Notice requirement. Agendas can be found on the Planning Board and Zoning Board of Adjustment website.

THE CHAIRMAN

The Chair will open the meeting and make any announcements at this time. He may note changes in the agenda and announce new hearing dates for matters that are adjourned. The meeting will then be open to the public. At this time any person may address the Board about a matter **not** being addressed on the agenda. Matters listed on the agenda will be opened for discussion at the appropriate time during the meeting. If a member of the public has a general question or special issue that they want to bring to the attention of the Board, as long as it is not related to any item on the agenda, they may come forward at this time.

PROCEDURE

The Planning Board and the Zoning Board of Adjustment are quasi-judicial bodies. The Boards operate similarly to, but not as strictly as a court of law. The Chair runs the proceedings as a judge might and the Board acts like a jury that votes on a final decision to approve or deny the relief being requested. The applicant provides testimony and will also have expert witnesses testify and introduce evidence in support of the case. During each presentation there will be an opportunity to **question the witness about his testimony**. At this time, the Board and the public are limited to **questions only**. After each witness has provided testimony and answered questions, the Chair will open the meeting to the public for **general comments and statements**. **This is the appropriate time for a member of the public to express an opinion about the application, or offer information or materials for the Board's consideration.**

CROSS-EXAMINATION

The Board, its staff, and members of the public, have the right to cross-examine each witness after they have completed their testimony. The applicant, their professionals and others having legal rights can also be cross-examined. Thus, statements should be **supportable** and **factual**. The Board is legally required to act on an application based upon the findings of fact and the proofs according to law that are presented to them. **Although the Board may take public input into account, it cannot and does not act solely based on public support or opposition.** The Board cannot make decisions based upon financial considerations such as "ratables" or "tax" revenues.

Anyone wishing to speak or testify at a hearing must appear in person to allow all parties the opportunity to cross-examine. **Petitions are NOT admissible into evidence** and cannot be read at a hearing. Letters are only admissible if the author of the letter is present and willing to read it into the record themselves. The author of the letter is then subject to cross-examination.

PUBLIC QUESTIONS AND COMMENTS

QUESTIONS

- The Chair will open the meeting to the public after each witness has testified so that the members of the public have an opportunity to ask questions of each expert. Please remember that this time is limited to questions of that particular witness and it is not the time for 'general' comments.
- A member of the public may come to the microphone when acknowledged by the Chair. He/She will be asked to state his/her name and address for the record, and is then permitted to direct questions to the appropriate party.
- Expert witnesses only testify in their field of expertise.
- After public questions are completed, the Chair temporarily closes the hearing on this aspect of testimony.
- This process is repeated with each different expert witness.
- When all witnesses have been presented and the testimony is complete, the Board and its staff have the opportunity to ask any final questions.

COMMENTS

- Just before the Board takes final action on the application, the Chair will once again open the meeting to the public. This is the appropriate time to offer general comment or opinion on the proposal, request special consideration and/or ask any final questions. This is probably the last opportunity for the public to speak on the application. Remarks may be directed to a specific person or to the Board.

When you follow the above procedures, your contributions will have maximum impact on the Board's deliberations as they consider a land use application. Please note however, that the Chair has the right to close the public portion of a hearing if the audience becomes unruly. The Chair may also limit repetitive comments or irrelevant testimony. The Chair may also limit the time or number of questions or comments from one citizen in order to allow adequate time for other members of the public to comment. The goal of the Board is for the applicant as well as all residents and members of the public affected by an application to be heard.

These procedures are generally adhered to strictly during hearings on large or complex applications requiring many witnesses and a great deal of testimony. For smaller or less complicated applications, the Chair may, when appropriate, open the hearing for both questions and comments at the same time.

Anyone unsatisfied with the outcome of an application, has the right to appeal a decision, in Superior Court, within 45 days of adoption of the Board's resolution.

We hope that this evening and your participation in it, will prove to be a rewarding experience. We thank you for coming out to participate in this vital democratic process. If you have any other questions about the Board process, feel free to call the Land Use office at (201) 391-5673.

***This information is for the purpose of assisting interested parties in understanding and participating in the municipal land use process. Each application is unique and deviations from the basic process necessarily occur. Such deviations should not be considered a basis for an argument in any appeal of a Board decision.

Questions regarding land use procedures should be directed to the Zoning Officer or Land Use Secretary at 201-391-5673
